

VersaCopier-1. An affordable but fast DVD/CD Duplication and Publishing system

VersaCopier 1—fastest single recorder solution for CD-R, DVD-R, and DVD+R Recording.

CD Master Size	350 MB	650 MB
Copies PH* (48x)	20	16
DVD Master Size	1GB	4.75GB
Copies PH* (16x)	15	7
Actual Output using VersaBurner	*Per Hour With Printing	

VersaCopier 1 provides a very affordable 1 writer desktop DVD/CD-R copying and printing system that offer twice the throughput of other competitive one recorder systems by duplicating and printing at the same time. The VersaCopier 1 is quite, fast, and reliable—the key when you need to get those duplication jobs done at the last minute.

The robust Center-Pick autoloading mechanism has provided hundreds of our customers with ease of use and trouble-free operation. The VersaCopier components are based on industrial design technology that will provide years of trouble-free operation. The same components used in our three and four recorder models.

The optional Network software allow users on the network to submit CD/DVD duplication jobs from their desktop! Windows users can select image files, raw data or audio files, or premaster right from their PC's CD ROM reader to the VersaCopier.

The VersaCopier comes standard with a 20X DVD/48X CD writer that are controlled with the powerful VersaBurner Recording Software providing a smooth duplication process with trouble-free operation. In addition, the VersaCopier can support a high quality inkjet printer or two choices of thermal printers, the most versatile duplication system on the market.
